## *Did you know?*

*Panama is a country of incredible beauty. The rainforests offer a diversity of flora and fauna found in no other place in the world due primarily to Panama forming a natural land bridge connecting the South American continent with Central America. Low mountains run through most of the country, leaving a gap in the center that is nearly at sea level.*

*Panama is rich in Caribbean Spanish folklore and popular traditions.*

## Did you know?

*The legendary ivory colored, light-weight Panama Straw Hat has been the most preferred straw hat of some of the most influential men. Historically, international politicians and royalties have popularized the trend of wearing the Panama hat. This straw hat is tightly woven from the finest straw and is remarkably very light and airy with the smoothness of satin. The World News photographed President Roosevelt hovering on a Panama Canal steam shovel wearing his Panama hat in 1905. That triggered the fashion and even today, the Panama Straw Hat is still a favorite among celebrities, presidents, movie stars, business tycoons and tourists alike.*
