

TESTIMONIALS from some Panama A/V clients

Like most people, we bought a TV and plugged in the cable. But it was Panama AV that helped turn living room into a media center. What sets Jeff and Joan apart from all others is their desire to please the customer. Not only are they real nice people; the quality of workmanship and the attention to detail was exceptional.

Don't just flip the switch and watch TV; take it to the next level and turn the TV into part of a multi media experience with surround sound that that makes every movie and even the news enjoyable to watch. The only thing they didn't deliver was the pop-corn and beer. Thanks to Team Panama AV.

Nick & Madeline, Playa Blanca

"Thanks to PANAMA A/V, S.A. now I can enjoy the audio and video quality on my home theatre system. When the time comes to demand for reliable, professional, dedicated and punctual service, you can trust PANAMA A/V, S.A. with over 20 years of experience.....These guys are outstanding!!"

Hernando "Kuto" Vasquez, Coronado

We have a great experience with Panama AV. They advice you on what you really need and the work is done on time. We highly recommend them if you want an excellent Audio and Video system in your home. Panama AV Rocks!!

Moises Berenstein and family, Playa Blanca

This is testimony to the excellent service I received. In my very large complicated electronic/media system, Jeff and the staff at Panama Audio Video did an extremely competent service for me without the ability to see all of the connecting wires. Not only was the work done on time, it was done in a very courteous manner. As a businessman and owner of a large property, I recommend this firm to anyone needing an expert in the field.

Mark K, Coronado Beach

For a true, hi-tech audio-visual and multimedia experience, without the hassle, the uncertainty, or the guesswork, Panama A/V are your go-to guys. One call to Jeff and he was at our home in Coronado with suggestions, proposals, cost estimates and time-lines. We signed a contract and left for Canada. On our return, two months later, we were stunned. Our new 60 inch LG plasma TV and Bose speakers were up on the wall without any sign that the wall (or our home) had ever been disturbed. No sign of any wires either. The entire system looks and sounds way better than we ever imagined it would. Jeff and his team are professional, competent, competitively-priced, efficient and hungry to succeed and they deliver what they promise. On time! Frankly, we couldn't be happier. It's such a pleasure to deal with real professionals in this part of the world. We recommend Panama A/V very highly and would personally vouch for them. Thank you Jeff. -

Ron & Elaine, Coronado
